

SHIP-2021 Monthly Project Status Update

July - September 2016

July - September 2016 Project Status Update

Great progress was made between the months of July and September. As a follow-up to the State Health Assessment Advisory Group (SHA-AG) meeting on June 29, a virtual meeting was held to get their final recommendations. SHA-AG members discussed and agreed that the following key health findings would be recommended to the SHIP Steering Committee for consideration as priorities for the SHIP:

1. Chronic Diseases and Conditions
2. Immunization and Infectious Diseases
3. Healthy Weight, Nutrition and Physical Activity
4. Tobacco, Alcohol, and Substance Abuse
5. Sexually Transmitted Diseases
6. Injury, Safety and Violence
7. Behavioral Health
8. Maternal and Child Health

After the meeting, staff worked with subject matter experts to create infographic* displays for each key health issue.
